

# POPULATION IN SUFFOLK COUNTY, MASSACHUSETTS

Choloropleth Map:  
Tract-level Population Density

Dot Density Map:  
Racial Population Distribution

**Software:** The maps were plotted using RStudio, and the final document edited in Adobe Illustrator.

**Aknowledgements:** I worked on this assignment together with Roua Atmazi Sibai, Anishta Khan - this was greatly helpful since we were all new to coding in R. Later in the process, I received assistance from Clara de Castro in debugging an error in code toward joining two datasets, and Lindsay Crockett reminded me to add a scale-bar and north arrow.

**Data:** US Census Surveys; TIGER files
